

Christ Ev. Lutheran Church Vacation Bible School 2009

Day 4: God Protects His People
Portions of Exodus 14-17

DIVE IN!

Only one day left for us to Dive Into God's Word at our VBS this year. It sure looks like the kids and teachers are having a good time learning more about God's grace.

MEMORY TREASURE:

Cast all your anxiety on him because he cares for you.

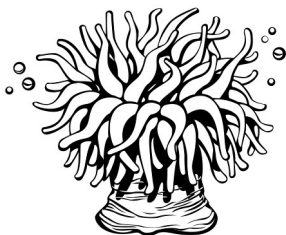

1 Peter 5:7

SEA CREATURE OF THE DAY IS...

Sea Anemone

The ornately colored sea anemone (uh-NEM-uh-nee) is named after the equally flashy terrestrial anemone flower. A close relative of coral and jellyfish, anemones are stinging polyps that spend most of their time attached to rocks on the sea bottom or on coral reefs waiting for fish to pass close enough to get ensnared in their venom-filled tentacles.

Their bodies are composed of an adhesive pedal disc, or foot, a cylindrical body, and an array of tentacles surrounding a central mouth. The tentacles are triggered by the slightest

touch, firing a harpoon-like filament into their victim and injecting a paralyzing neurotoxin. The helpless prey is then guided into the mouth by the tentacles.

AIR CREATURE OF THE WEEK...

Mud Wasp

All week long we have been talking about the Sea Creatures that are helping us learn more about God's Word but we also have some Air Creatures that are NOT part of the lessons. A good number of very large and scary wasps are trying to spoil our fun. Be assured we are taking care of the problem. Zach Thooff and Jordan Schreiner are not only helping out in the kitchen this week but are also pretty handy with a can of wasp spay. I think by the end of the day on Thursday our stinging situation will be resolved.

HELPERS:

We have already told you who are teachers for the week have been but they are not the only ones who play a big part in the week. A number of other people have also been very helpful in making our VBS successful. Mrs. Michelle Thooff is heading up our crafts this year. She is being helped by Mrs. Lori Duscher. Making sure all of our sea explorers are well fed has been Miss Anna Biastock.

RESTROOMS:

Did you ever wonder why they call bathrooms "restrooms"? I can't say as I have ever said, "I am feeling a little tired I think I will go to the restroom and lay down. Anyway – our restrooms/bathrooms in the older section at Samuel are looking much nicer now. (You might even want to go in and take a rest) Mr. Walt Strangman has put in a lot of time working on them. There is new tile on the floor and the partitions have all been sanded and painted. It looks much nicer now. We also want to thank Mr. Brian Onken for helping out with this project too.

BALLOONS:

We would like the children who are singing to meet at the Liberty Park band shell at 8:45 Sunday morning. You will know where we are meeting when you see the balloons. We will practice the song and then sit together as a group.

VILLAGE DRIVE:

It looks like the best way to enter the school parking lot will be from Birch Street. We hope that there will be two of the three entrances open.
